DETAILED ACTION

Applicant's amendment filed 4/16/2004 has been entered.

Allowable Subject Matter

Claims 1-23, 44-57 are allowed.

The following is an examiner's statement of reasons for allowance: a hollow core waveguide having a dielectric cladding deposited on the core is known in the art as discussed in the prior office actions. Also, see Le Fabre (US 5,892,861) and Abramowicz et al (US 6,215,947 B1) for disclosure of hollow core optical waveguides.

However, none of the prior art fairly suggests or teaches a Bragg waveguide, wherein a uniform conformal multilayer dielectric coating is deposited on the inner wall of an annular hollow core, as claimed in the instant application.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
